

# Mohosin Hasan Akash

Frontend Developer

mohosin.hasan.akash@gmail.com  
https://www.linkedin.com/in/mohosinh99/

## EXPERIENCE

### Freelance

Remote (Mymensingh, Bangladesh)

Frontend Developer - Next.js, TypeScript, Tailwind CSS, Strapi

May 2025 - Jun 2025

- Developed a custom web app showcasing the client's business, ensuring requirements were met and online presence improved.
- Built a responsive, user-friendly UI with Next.js, TypeScript, and Tailwind CSS.
- Integrated Strapi for content management and applied SEO best practices to boost search engine visibility.

## PROJECTS

### SmartGPT - AI Chatbot

[live url](#) [repo url](#) [case-study](#)

- Built a secure full-stack AI chatbot and image platform, enabling users to chat with AI and generate images instantly.
- Developed a scalable backend API to ensure smooth performance and reliable user access.
- Fixed delayed AI message updates and inconsistent chat titles by optimizing async/await handling, ensuring real-time responsiveness.

### AI-Powered Resume Builder

[live url](#) [repo url](#) [case-study](#)

- Built a full-stack AI Resume Builder with Next.js, TypeScript, and Tailwind CSS, enabling professional resumes with full CRUD support.
- Integrated Google Gemini AI for automated descriptions and skill suggestions, optimizing for reliable outputs.
- Resolved Next.js 15 typed route issues by downgrading to Next.js 14 and adjusting configurations for stable, consistent routing.

### Clean YouTube

[live url](#) [repo url](#) [case-study](#)

- Built a Clean YouTube app with React for an ad-free, distraction-free experience, allowing users to enjoy YouTube playlists without ads or interruptions.
- Optimized performance using local storage caching to reduce API calls and improve load times.
- Fixed duplicate notification issues by refactoring async handlers with async/await, improving UI reliability.
